Process Safety Fundamentals in PAE

Upstream & Downstream

10 Upstream

10 + 2 Downstream

From Total Unconditional Discipline (DTI) to PSF

Campana Refinery

... Perform each task the right way, every time, from the first time...

We perform operational rounds and oversee Emergency Response elements

We hold a 15-minute talk during shift changes

Next Steps...

What does Process Safety Fundamentals mean in your daily tasks?

- Field Observations with focus on PSF
- Guidelines for Manager visits

Key Performance Indicators

Thank you.
